

Here is a sample for the p3 wallpaper:

Here is a sample of the p6 wallpaper:

Here is another sample of wallpaper symmetry...can you guess which one it is?

The symmetries for the wallpaper involve symmetries with rectangles, squares, rectangles, parallelograms, rhombuses and the hexagons. They are very familiar geometries that show up in nature as well as in our artwork and society. I think it only beautiful and natural that these patterns would show up not only in the Alhambra, but in artwork from around the world.
